Teach 3 to 5-year-old children in the JVS Ohio Department of Education licensed preschool and learn how to plan and conduct developmentally appropriate lesson plans.

Community Service Academy (continued)

LANDSCAPE and GREENHOUSE MANAGEMENT

Learn landscape, floral design, greenhouse management, and plant propagation. Use landscape equipment such as zero turn mowers and skid loaders. Manage new technologies in plant growth with aeroponic and aquaponic systems.

PUBLIC SAFETY

Learn first aid and CPR, patient care, ambulance transport, injury assessment, fire science and protection, pre-hospital care. Prepare to take the Ohio Firefighters II certification test and the National Registry Exam for EMT/B certification.

SPORTS, HEALTH and FITNESS TECHNOLOGY

Pursue a career in the fitness, sports medicine, and therapy industries. Learn anatomy, exercise physiology, strength conditioning, nutrition, medical terminology, sports medicine, and therapy techniques.

Connections Academy

CAREER READINESS | 9TH GRADE

Placed in a structured lab setting, develop skills and knowledge necessary for acceptance into our career tech programs as a junior. Through the use of different types of equipment, projects, and career modules, learn appropriate safety procedures and obtain a variety of skills that will help you focus on a successful career choice.

CAREER EXPLORATION | 10TH GRADE

Experience different career-technical labs during your sophomore year to help develop skills and gain knowledge necessary for acceptance into our career tech programs as a junior. After completion of this program, you may focus on a career choice that and apply to a two-year JVS career-technical program.

CAREER-TECHNICAL STUDENT ORGANIZATIONS (CTSO)

CTSO'S are designed to help students develop leadership skills, team-building skills, social skills and good citizenship. Students have opportunities to travel for competitions and conferences to showcase skills and earn scholarships.

CAREER SERVICES

JVS is committed to helping students achieve employment in their career fields. Our Career Services Specialist will assist students in work-based learnings, summer internships, early job placement, interviewing techniques, resume writing and revisions, and job searches. This service is available to JVS students and to all JVS alumni.

Culinary Academy

BAKERY and PASTRY ARTS

Learn baking and food preparation techniques, then develop more advanced skills in cake decorating, chocolate sculpture, and plated desserts. Study the science of baking and work in the JVS on-site bakery.

CULINARY ARTS

Develop advanced cooking techniques while using state-of-the-art equipment to prepare delicious food. Operate the full-service Buckeye Room Restaurant, the JVS on-site restaurant.

Manufacturing and Pre-Engineering Academy

ENGINEERING DESIGN and TECHNOLOGY

Collaborate with local businesses to prepare technical and architectural drawings needed to manufacture a variety of parts and structures. Build hands-on models and prototypes of designs. Train in coding and flight of small unmanned aircraft system drones.

PRECISION MACHINE TECHNOLOGY

Machine precision metal parts using lathes, mills and CNC equipment. Learn to read blueprints and perform machine maintenance.

WELDING and FABRICATION

Learn manual, TIG, MIG, and arc welding along with automated welding techniques while working on real world projects.

INDUSTRY CREDENTIALS

Students who successfully complete their JVS career tech program leave with an industry recognized credential and/or license. These validate the student's ability to perform certain basic tasks essential to the particular industry.

ASSOCIATE SCHOOL DISTRICTS

Amherst, Avon, Avon Lake, Clearview, Columbia, Elyria, Firelands, Keystone, Midview, North Ridgeville, Oberlin, Sheffield/Sheffield Lake, Wellington

Transportation Academy

AUTO TECHNOLOGY

Diagnose and repair today's modern cars. Learn about brakes, electrical systems, steering and suspension, and engine performance.

COLLISION REPAIR

Work on vehicles that require frame and body straightening, welding, refinishing, and painting.

COMMERCIAL TRUCK TECHNOLOGY

Maintain and repair diesel powered trucks with a focus on electronic engine control. Learn about air brakes, drive trains, electrical systems, steering, and suspension.

INDUSTRIAL EQUIPMENT MECHANICS

Maintain and repair small engines, power sports vehicles, agricultural, and construction equipment. Focus on gasoline and diesel engines, electrical systems, hydraulics, and drive trains.

Satellite Programs

PROJECT LEAD THE WAY - PLTW

Designed to help you succeed in engineering, science, and technology careers. This program takes place on the campus of LCCC.

TEACHER EDUCATION EXPLORATION 12TH GRADE

Receive three credits for classroom work and internship experience in a local elementary, middle, or high school.

Special Recommendation Programs

These programs need a recommendation from your associate school counselor.

CAREER BASED INTERVENTION 12TH GRADE

Designed for senior students who are academically on track for graduation and are looking for real world work experience during the lab portion of their school day.
