5. SOFTWARE ON IPADS

5.1 Originally Installed Software

- The software/apps originally installed by LCJVS must remain on the iPad in usable condition and be easily accessible at all times.
- From time to time the school may add software applications for use in a particular course. The licenses for this software require that the device may need a manual update. Periodic checks of iPads will be made to ensure that students have not removed required apps.

5.2 Additional Software

- Students are not allowed to load extra software/Apps on their iPads. LCJVS will synchronize the iPads so that they contain the necessary apps for school work.
- Students will not synchronize iPads or add apps to their assigned iPad, to include home synching accounts.
- Students will not attempt to sync iPads with any computer. Any attempt will result in an immediate device lock.
- Any attempt to jailbreak the iPad or change the configuration may result in an immediate loss of the iPad subject to administrative discretion.

5.3 Inspection

- Students may be selected at random to provide their iPad for inspection.

5.4   Procedure for re-loading software

- If technical difficulties occur or illegal software, non-LCJVS installed apps are discovered, the iPad will be restored from backup. The student may also lose the privilege of using the iPad. The school does not accept responsibility for the loss of any software or documents deleted due to a re-format and re-image, throughout the school year or during the summer months.

5.5 Software upgrades

- Upgrade versions of licensed software/apps are available from time to time. Students may be required to check in their iPads for periodic updates and synching.
