

Right Skills Now program in

COMPUTER NUMERICAL CONTROLS MACHINIST

The program is a part-time evening program that consists of college credit and non-credit coursework. The program takes two semesters to complete the college credit coursework and non-credit coursework.

The third semester will consist of a 12-week, paid internship with one of our local industry partners. (Eligibility requirements apply.)

Program Start Date

CNC Machinist program begins
Tuesday, January 19.

Program Highlights

Has two nationally recognized credentials embedded in the program: National Career Readiness Certificate and National Institute of Metal Working Skills along with OSHA-10 certification. It is a blend of college credit and non-credit components and is eligible for financial aid.

Who Should Attend

- Dislocated Workers • Veterans
- Recent High School or GED Grads

Internships are available with our industry partners. A few of these partners include:

- Earnest Machine
- EMC
- General Plug
- Plidco
- Watteredge
