

PayForIt.net

Dear Parents and Guardians,

For the 2017-2018 school year, Lorain County JVS is pleased to continue the ability to manage student fees accounts over the Internet by using PayForIt.net, an online school management tool. PayForIt.net may be accessed via www.lcjvs.com. Look for the Quick Links section on the left side of the page and click on (PaySchools – PayForIt.net) or you can access it directly at www.payforit.net.

If you have previously set up a PayForIt account for your child at another school district you **MUST** set up a new guardian account with a different email!! Once you have done that and are at PayForIt.net you will need to select Lorain County JVS as your district.

With PayForIt.net, parents/guardians can log in at any time and view the account balance, make a payment, or pay in full the student's fees. Payments can be made by either using a credit card or checking account.

Transactions processed by PayForIt.net are safe and secure using Secure Socket Link,SSL, technology with DigiCert. With this technology, parents/guardians can be assured that all credit card or checking account information will be highly encrypted and secure.

If you wish to use a Mac computer to process a transaction, it is suggested that you use the Firefox internet browser; PayForIt.net is not currently very compatible with Safari. You may download Firefox for free by visiting www.mozilla.com.

If you have any questions about this, please contact Tania Chafin, Financial Clerk at (440)774/1051 x22275.
